

LORRIO — STRATEGIC PARTNERSHIP PROPOSAL

Exclusive Partnership Proposal for Quarry & Fleet Owners (16 Lorry Operations)

Prepared For: Strategic Quarry & Fleet Owner

Fleet Scale: 16 Lorries + Laterite Quarry

Primary Corridor: Kannur ↔ Wayanad

Value Prop: Zero Empty Miles & Direct Quarry Sales

1. Executive Summary & Partnership Value

As an owner of a major Laterite Quarry in Kannur and a fleet of 16 lorries, your operation is the exact supply-side powerhouse that **Lorrio** is designed to empower.

Lorrio is a digital construction-material logistics platform. By partnering with Lorrio as our founding flagship partner, we instantly transform your fleet and quarry operations into a high-tech, high-profit enterprise.

2. Financial Benefits For Your 16 Lorry Fleet

- **Eliminate Empty Return Miles:** Currently, when your lorries transport laterite up to Wayanad, they often return back down the ghat pass completely empty. Lorrio's **Smart Return-Load Optimizer** automatically matches Wayanad → Kannur return loads (crushed granite aggregates, timber, sand), generating an extra **₹5,000 to ₹6,000 profit per lorry trip**.
- **Fleet Revenue Multiplication:** Across 16 lorries running 20 trips per month, eliminating empty return trips adds **₹16,00,000+ extra monthly profit** to your fleet!
- **Live Fleet Telemetry & Driver Control:** Monitor all 16 lorries on an interactive map with real-time GPS tracking, speed indicators, and driver delivery ETAs.

3. Benefits For Your Quarry Operation

- **Direct Customer Sales Channel:** Sell laterite stone directly to contractors and builders in Wayanad without paying middleman broker markups.
- **Priority Listing Status:** As a launch partner, your quarry gets **Verified Flagship Status** at the top of Lorrio customer search results.
- **Instant WhatsApp Order Sharing:** Automated WhatsApp dispatch receipts sent to customers with lorry details, driver contact, ETA, and live tracking links.

4. Fleet Payout & Economics Summary

Metric	Without Lorrio	With Lorrio Platform
Fleet Size	16 Lorries	16 Lorries (Fully Utilized)
Return Trip Utilization	0% (Empty Ghat Backhaul)	100% Matched Return Loads
Extra Profit / Trip	■0	+■5,400 per trip
Monthly Fleet Gain	Baseline Freight	+■16,00,000 / Month Net Gain
